CuBIT

## DYNAMICS

Innovating without limits

Who are we ?

We're CuBIT Dynamics—hardware hustlers and software sorcerers.
From circuits to code, we build badass tech that actually works.

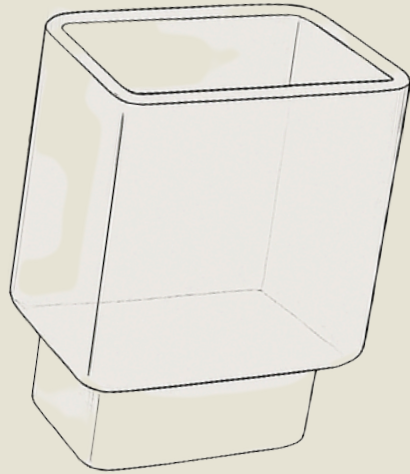

Why us?

Because your cousin's "tech guy" can't do this.
We build custom tech like it's our love language—zero fluff, maximum flex,
and deadlines we actually respect.

CuBIT
DYNAMICS
Innovating without limits

Our Range of Products

Built for business. Powered by brilliance.

World class hardware and software solutions for all domains.

CuBIT DYNAMICS
Innovating without limits

Our 6-DOF Robotic Arm delivers precise, fluid motion across all axes—perfect for high-speed pick-and-place operations. Whether it's assembly lines or delicate object handling, this arm works like a pro with human-like dexterity and industrial-grade accuracy.

Features:

- 6 Degrees of Freedom
- High-precision servo motors for smooth and accurate movement
- Customizable grippers for handling various objects
- Programmable for automation and repetitive tasks

Use Case: Ideal for industrial automation, assembly lines, lab sample handling, educational robotics, and precision pick-and-place tasks in compact workspaces.

TraceLink-X1

GPS Tracker

A compact wired GPS tracker with USB-C connectivity for easy installation. Offers real-time tracking, GPS history playback, geofencing, and SMS alerts. Ideal for personal vehicles or fleet monitoring with reliable, hassle-free performance.

Features:

- USB C Connection
- Realtime GPS Tracking
- GPS History Playback
- Geofencing Alerts
- SMS Alerts

Neo-X1
GPS Tracker

Plug it in, power it up, and track like a boss. With real-time GPS, driver behavior insights, and full vehicle diagnostics straight from the OBD-II port.

Features:

- Plug and Play OBD-II Interface
- Real-time GPS Tracking & GPS History Playback
- Geo Fencing
- Driver Behaviour Monitoring [Harsh breaking, rapid acceleration, over speeding, idle time monitoring]
- Vehicle Health [Battery Voltage, Car Engine RPM Speed, Coolant Temperature, Speed, Throttle Position, Engine Runtime, Fuel Level, etc.]

TracKID
GPS Tracking Application for School Buses

CuBIT
DYNAMICS
Innovating without limits

Track rides, not worries. TracKID keeps parents and schools in sync with live bus tracking, smart alerts, AI-optimized routes, and driver insights — because safety should always ride shotgun.
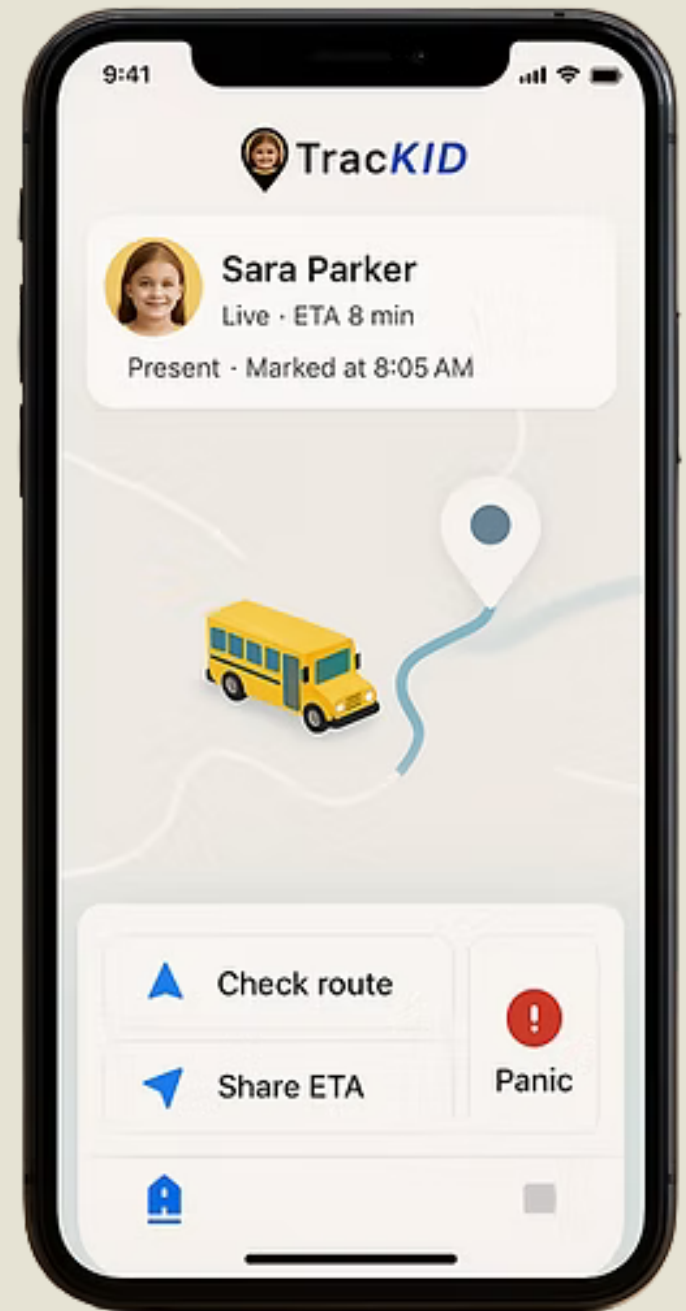

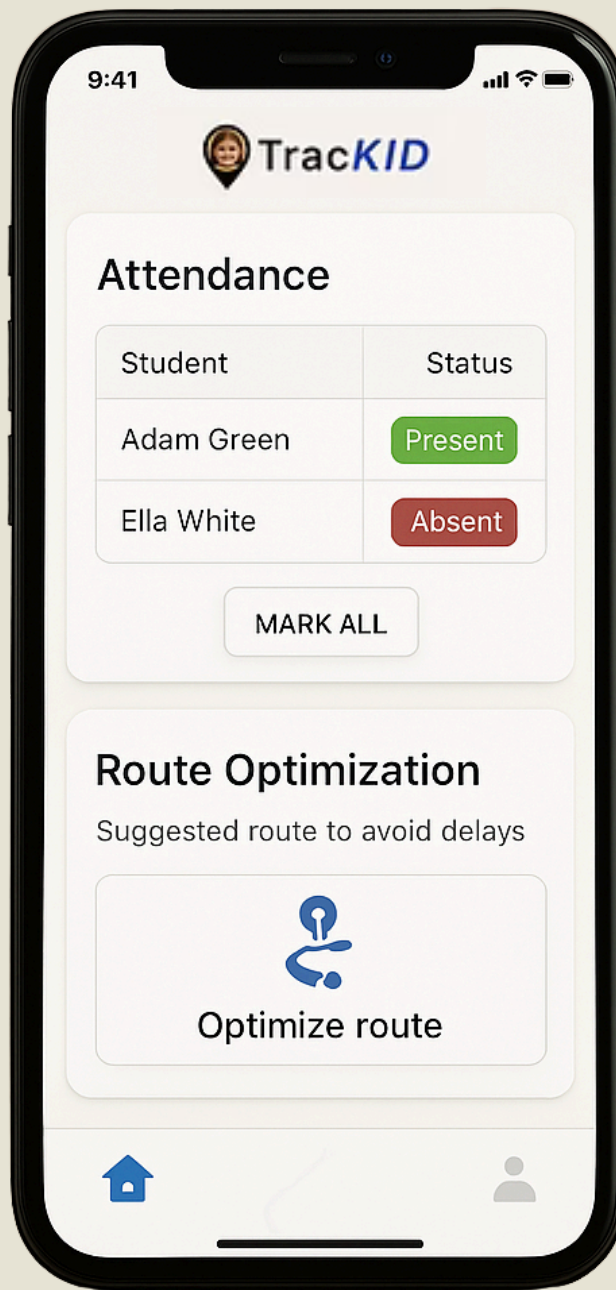

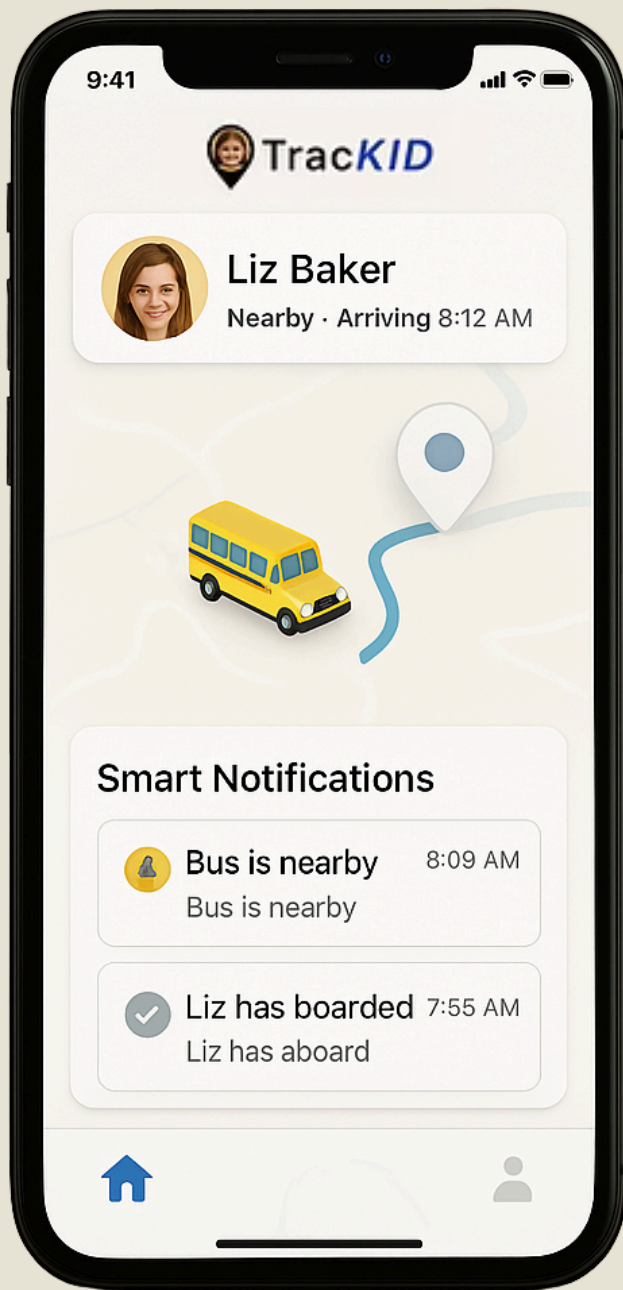

Features:

- Live School Bus Tracking [For Parents and School Management]
- Smart Notification [Alerts when bus is nearby, child on-boarding and de-boarding]
- Attendance Monitoring
- Emergency Alerts
- AI based Driver Router Optimization
- Pickup Point Management
- Fleet Monitoring for School
- Driver Performance Insights [Punctuality, Safety, Route Adherence etc.]

TracKID - UI Interface

Cubi-View
Employee Computer Monitor

Cubi-View – Monitor, manage, and control employee activity with precision. Productivity, secured.

Tracking Features:

- Periodic Screenshots
- Short Audio Clips (Consent-based)
- Brief Webcam Video Clips
- Keylogger (Keystrokes / Words Typed)
- Mouse Movement Tracking
- Active vs. Idle Time Detection
- Clipboard Monitoring
- Browser History Logging
- Application Usage Tracking
- Software Installation / Uninstallation Logs
- Print Job Monitoring

- Time Spent on Each Window / Browser Tab
- Laptop Geolocation
- Login / Logout + Screen Lock / Unlock Detection
- Mouse Click Count
- Keystroke / Word Count
- Top 10 Most Visited Websites with Time Spent
- Top 10 Most Used Applications with Time Spent

CuBIT
DYNAMICS

Control Features:

- VPN Detection & Blocking
- Chrome Extension Restrictions
- USB Port Access Control
- Software Installation / Removal Restrictions
- Incognito Mode Blocking
- Website Blocking & Whitelisting
- Screenshot / Snipping Tool Prevention
- Copy-Paste Enable / Disable
- Download Enable / Disable
- Built-in Ad Blocker
- Custom Antivirus & Spam Link Detection
- Internet / Screen Time Limits for Kids (Auto-Shutdown or Block)
- Lunch Break Mode (Idle Time Ignored When Locked During Break)

Track-IT
Ultra Low Power Tracker Modules

Stay connected to what matters most — effortlessly. Our low-power GPS trackers are perfect for keeping tabs on kids, pets, and precious belongings like jewelry and documents. Compact, reliable, and smart enough to never miss a move.

Features:

- Ultra Low Power Consumption
- Real-Time Location Tracking
- Geo-Fencing Alerts
- Compact & Lightweight Design
- GSM & GPS Connectivity
- Multi-Device App Support

Bulk Blaster
Bulk WhatsApp & Emailing Solution

Bulk Blaster is your go-to powerhouse for high-impact WhatsApp and email marketing. Blast thousands of messages in seconds, stay personal at scale, and watch your conversions skyrocket.

Fast, reliable, and built to get you noticed.

CuBIT
DYNAMICS
Innovating without limits

We are a stealth-mode company building fully customized hardware and software solutions. No templated products, no fluff — just exact quotations, high-quality R&D, and on-time delivery.

Every project is case-specific,
crafted by a dedicated team including experts from Germany & China.

We don't just advertise — we deliver.

Want us to customize a product for you? Or build something entirely new? Connect with us now!
